

Education

Pre and Post Feedback from the HEA and NQAI Motion

Congress Notes:

That USI, as the National Union representing most students studying at third-level colleges in Ireland, holds seats on all the bodies charged with policy, funding quality assurance and regulation of the third level sector, such as the HEA and NQAI and others.

Congress Notes with Concern:

The lack of institutional memory in USI with regard to issues discussed at these meeting.

Congress Further Notes:

The importance of this high-level involvement for the constituent members of USI who pay an annual affiliation fee to USI.

Congress Therefore Mandates:

The President and Education Officer to create effective briefing and reporting communication channels, pre and post these meetings which USI attends (Pre meeting to consist of a notification of agenda items, and what stance USI plans to take on each, and an aide memoir post meeting of the discussion of each topic, what USI represented to the meeting and what the outcomes was.) on behalf of CO's, and where matters relevant to the COs are decided upon.
