Key Points of work carried out since last meeting

Príomhphointí ón gcrúinniú deireanach

Hi all,

A very short turn around since the last meeting. A busy and as always stress filled couple of weeks. But not without its highpoints and fun moments.

We Work

You may be aware that we work have submitted planning permission for 2 building on ST Brendan's Way. In between the Broadstone LUAS stop and the east quad. The buildings will be connected by a shared basement. We, along with the school of art and design has some concerns. 1.) The proposed buildings are 12 storeys tall, this may significantly impact the natural light going into the east quad studios, 2.) The school of music are concerned about noise issues. 3.) The plans propose closing st. Brendan's way for "Several Years"

In the proposal they are saying they will create some sort of diversion which might involve students walking down towards Smithfield and there will be a lane way constructed. We have huge safety concerns about this. We are meeting them tomorrow to discuss and I will update at council.

The U Survey

The majority of my last 2 weeks has been taking up with this. The SU is running a 3 week long survey to find out what the student experience is like and that will help inform what we do over the coming years. I was involved in the putting together the survey and auditing the questions. Then due to the huge workload our designer has I stepped in to do all the graphics and promotional materials.
